One Possible Version:

Dear Jeff,

I know you are confused about your career planning. There is no doubt that the rise of AI narrows down traditional job options. However, it also creates new job opportunities. AI enhances productivity, allowing humans to focus on emotionally-driven fields like education and healthcare.

It's likely that you wonder how to stay competitive in the AI era! You shouldn't stick only to conventional knowledge acquisition. Instead, you need to improve your creative ability by engaging in program design or software development. Besides, you also need to take advantage of AI to better equip yourself.

After all, AI is a partner, not a threat. With adaptability, you can definitely light up your future!

Yours,

Li Hua

One Possible Version:

Thankfully, the main power was switched off and the ambulance arrived soon. The medical workers out of the ambulance quickly assessed the boy's condition and checked his vital signs. His breathing was shallow, but he was still alive. We watched as the medical workers gently carried him to the ambulance, taking extra care to avoid any further injury. A crowd had gathered, and everyone stood in tense silence, hoping for the best. My mother's tears welled up in her eyes as she stared at the boy's small milk bottles lying on the wet ground. That night, I lay awake until midnight, anxious about the boy's condition.

Early the next morning, I learned about the updates from the hospital. The doctor called to inform us that the boy had regained awareness. “He got an electric shock and suffered minor burns, but he’s stable now,” the doctor explained warmly. “The boy asked me to thank everyone who saved him—especially the man with the bamboo stick and the warm-hearted people who called for help.” Later that day, the boy’s parents visited our neighborhood, expressing their appreciation with tearful smiles. At that moment, I realized that even in the darkest times strangers can come together and protect each other. Life may be delicate, but the bond among people makes it strong.

2025 年东北三省四城市联考暨沈阳市高三质量监测（二）英语试题听力原文：

Text 1

W: I ran into Mandy just now. **She needs to borrow this cake mixer.**

M: And what do you want me to do?

W: **It would be great if you could drop it off on your way to work. (1)**

Text 2

M: This is Joe. May I help you?

W: Hello, **something is wrong with the refrigerator I bought yesterday.**

M: Did you read the instructions?

W: Of course. **I plugged it in, but it just didn’t work. Could you please send someone to take a look? (2)**

Text 3

W: Hi, Jim. **Is the hotel ready for this afternoon’s awards dinner? (3)**

M: Actually, the room’s been set up, but we’re a few tables short.

W: Oh, I’ve already taken care of that. The furniture will be delivered in an hour.

M: Great!

Text 4

W: What do you think of the test?

M: It had challenges, but generally **everything was covered in the textbook.**

W: You sound confident. **I spent all of last week reviewing the book and felt like I wasted my time. (4)**

Text 5

M: **I’m sad to say that our club has run out of funds for this year.**

W: **We can organize more fundraising projects. Why don’t we put up a concert? (5)** We’ll need many volunteers, though.

M: Good idea. You can count me in to help out.

Text 6

W: This is Marcy Ardmore from Sladen Motors. Some automotive parts we ordered from your factory haven’t arrived yet.

M: I’m sorry to hear that. **We sent your order over a week ago, but the shipping company has been experiencing delays due to the bad weather (6),** and the tracking emails they sent us don’t contain enough detail to determine when the parts will arrive.

W: I see. Do you have contact information for the shipping company? I'd like to see what I can find out.

M: Yes, I can give you their phone number. **But I'll also call them. (7)** Hopefully, the more concerns they get, the more seriously they'll take the issue.

Text 7

W: Are you OK? You look a bit down.

M: **Well, my mother criticized me because I am bored with sleeping at night.(8)** You know, only the night time is my own time. I find the quiet night is perfect for me to read books or think deeply about the past .

W: That's not good. You're damaging your health.

M: You're right. I also find my health is declining.

W: Sorry to hear that. Have you tried using one of the health and fitness trackers to track your sleep?

M: How would a sleep tracker help?

W: It monitors the quality of your sleep. **Some trackers even measure air temperature, the amount of light and noise, and monitor how you breathe.(9)** And you'll get to know your sleep habits, so you can see what helps you sleep.

Text 8

M: What is the rental cost for the house?

W: The monthly rent is \$980, and it includes maintenance fees for the garden.

M: **It's not that cheap but sounds not bad. (10)** And you said **the current renters are due to leave on the evening of the 20th, right?**

W: **Yes, but the cleaners will need 2 days to make sure that the house is clean and tidy. Then the house will be available. (11)**

M: **What date would it be possible to visit it?**

W: **The day after the renters leave the house. (12)**

M: OK. Would one o'clock be all right?

W: I'm afraid that I have a meeting at 12:30. I have available appointments at 10:15 and 3:00.

M: In that case, can we schedule the appointment for 10:15?

W: No problem, I'll book it into my schedule.

Text 9

W: Hello Luke, tell me about your research. What inspired you?

M: I once noticed people queuing outside a shoe store to buy a new style of trainers. **Then I came across an article in a magazine about the incredible number of shoes that are produced. That piece made me want to find out more. (13)**

W: So then you went to the event called Trainer Exchange?

M: Yeah. It's for people to buy and sell trainers. At this event, **everyone had to hand over ten pounds just to get in!(14)**

W: And you interviewed someone, didn't you?

M: That's right—I started with a couple called Meg and Tyler. They had a stand, piled high with hundreds of pairs of trainers, all styles and colors. **But what drew me to them was the fact that they were a couple in their thirties, and almost everyone else are teenagers. (15)**

W: And I know so many shoes are thrown away. Why is that?

M: There are lots of reasons. Shoes can look worn or a new style comes out. But above all, **it's that there are so many cheap styles that start to fall apart in no time.(16)**

(Text 10)

M: Good morning. Well, as you know, the community gardens at Hadley Park aren't in the best shape, and although the local government has a budget to deal with some of the problems, we do need volunteers for other tasks. Um, first of all, **don't worry about any litter you see lying about—one of the local schools has offered to help out with that as part of their own environmental project. (17)** The priority for you will be to give us a hand with the new wooden fencing—it needs constructing along parts of the bicycle track. **(18)** You've probably also noticed that the pathways that come from the bicycle track are quite narrow, **but the government will widen them later in the year. (19)** The other thing we're doing is getting rid of some of the foreign species that are growing in the gardens and putting back some native plants and trees. So, you'll be doing some digging for us and getting those into the ground. So, wear strong, waterproof boots; **it's quite muddy at the moment, and your own gloves would also be advisable. (20)** Tools will be available and we'll also provide food and drink.
